

## University Graduation Ceremony

### REQUIREMENT:

A marquee company required a temporary wheelchair ramp and step unit to their graduation tent and recognised the advantages of our steel modular systems, including:

- **Reconfiguration & Reuse:** Can be adapted and reused in future graduation events, offering long-term cost benefits.
- **Waste Minimisation:** Being reusable systems, they reduce waste and avoid contributing to landfills.
- **Ease of Dismantling:** Similar to a Meccano kit, our systems are constructed from individual components which can be dismantled in just a few hours, simplifying the removal process.
- **Eco-Friendly:** Our steel modular systems are much more sustainable option compared to single-use wood or concrete alternatives that end up in landfills. By choosing our systems, the company made a responsible choice that helps reduce waste and protect the environment.

### DESIGN PHASE:

We provided a quote and created 2D and 3D CAD drawings illustrating the systems in situ based on the measurements provided by the marquee company.

#### APPLICATION

Event

#### LOCATION

#### SYSTEM

Standard Modular Ramp & Steps

#### SERVICE PACKAGE

Supply Only

## INSTALLATION:

The ramp and step unit were swiftly designed, selected, packaged, and transported to the site, ready for installation.

The company's own fitting team then assembled the components using our instructional video guide.

## FEATURES INCLUDED:

- Slip-resistant Mesh Platform - A multi-directional walkway with self-draining steel mesh and a galvanised finish.
- Standard Colour: Black - Powder-coated black finish for greater durability than traditional paint.
- Adjustable Telescopic Legs - Adaptable to various threshold heights.
- Looped Trombone Ends – Prevents clothes from snagging at the ends.
- Standard Colour: Black - Our systems feature a powder-coated black finish, ensuring durability surpassing typical paint.
- Standard Handrail - This handrail is designed for hand gripping, offering stability and support.

## EXTRA FEATURE INCLUDED:

- Step Unit - An excellent addition to any ramp installation, offering access for able-bodied users. It can also function as a standalone unit, independent of the Rapid Ramp System.
